

# PRIVATE JOINT STOCK COMPANY AVDIYIVSKY METAL CONSTRUCTION DETAILS PLANT

## «Information letter»

Nowadays Private Joint Stock Company «AVDEEVSKIY FACTORY OF METAL CONSTRUCTIONS» is the only producer of many-sided, conic poles of lighting and contact network of city transport in a full cycle in Ukraine. Our products favourably differs from foreign and domestic analogs in the price policy, without being of a lower quality at the same time.

Poles of lightning produced by PJSC "AZMK" are:

- Reliability (the optimal balance of strength and lightness, resistance to vibration and wind loads).

- Quality (Poles are made on the hi-tech European equipment, making possible fast readjustment under release of poles of a different standard size and purpose, with application of modern technologies are sharp, flexible, weldings).

- Durability (the covering provides with hot galvanizing which supports reliable protection against corrosion and its service life not less than 25 years without any operational expenses).

- Convenience of installation and service (the modularity of designs and existence of the technological hatch provides expeditious assembly and convenient service, reducing labor costs by 10 times).

- Production capacity of the enterprise for release of support of lighting is up to 3000 pieces a month, various height (from 3 to 12 m). Steel many-sided galvanized support of lighting, support of contact network, the interception rods and flagstaffs made by production capacities PJSC of "AZMK" answer construction norms and rules of Ukraine and the EU. Such designs are calculated and suitable for their normal operation in the territory of Ukraine and EU. The high quality of poles is confirmed with the certificate on a control system of quality according to DSTU ISO 9001:2009 № UA2.006.08258-13, certificate of conformity № UA1.007.0007734-17 and European certificates - certificate of conformity EN ISO 3834-2 The TUV AUSTRIA SERVICES GMBH, CERTIFICATE 140801-EN 1090-W-011, CERTIFICATE of Conformity of the Factory Production Control 1922-CPR-0344.

We represent to your attention the short list of production of this type made by our enterprise:

- the poles of contact networks for tram and trolleybus lines
